## Objective

The compelling force behind my instinct to move forward in the area of teaching and research is the aspiration to be an exceptional intellectual canvasser with strong background in the applied econometric research in the specialization areas of Analysis of the Labour Markets, Financial Markets and Business Organizations. This aspiration is the reason of my profession to be in academia with industrial interaction for my research during my studies and teaching.

## Abilities

I have been teaching Business Economics, Business Mathematics, International Business Strategy and Advanced Quantitative Analysis to Bachelor and Master of Business Administration students at COMSATS Institute of Information Technology. Beside I am also using advanced statistical Software packages including SPSS and Stata for data analysis in my research. I am using internet for most of my research in economic issues.

## Key Skills

**Basic Programmes:** Windows XP, Vista and Windows 7, Microsoft Office 2003 & 2007, (Word, Excel, PowerPoint, Access).  
**Specific Software:** SPSS, STATA, Eviews 5, Web designing Portfolio  
**Languages:** English, Urdu and Pashtu.
