Welcome Message

Dear Colleagues,

On behalf of the Association for Public Economic Theory and Institute of Economics at Academia Sinica, it is our pleasure to welcome you to PET12. We are honored to have been selected to host this prestigious meeting and are pleased that you elected to join us.

The program for PET12 features distinguished lectures from 3 prominent economic theorists, Steven N. Durlauf (University of Wisconsin-Madison), Françoise Forges (Université Paris-Dauphine) and Nobel Laureate Eric S. Maskin (Harvard University). The program includes parallel sessions covering a broad range of issues relevant to public economics.

The social events at PET12 are designed to facilitate networking and to show you Taiwan's rich culture and warm hospitality. We start with June 11's Welcome Reception. This is followed by a Conference Reception at the Grand Hotel, which is built by the government in 1952 to accommodate important foreign diplomats. In the tour and Gala Dinner at the Palace Museum, we will have an opportunity see many ancient treasures and taste local cuisine.

Thank you for joining us! We hope your stay in Taipei is comfortable, enjoyable and productive.
