The Inaugural Conference of the
Chinese Game Theory & Experimental Economics Association

Call for Papers

For more than half a century, game theory has led to revolutionary developments in economics, and has also found important applications in mathematics, political science, law, sociology, psychology, biology, engineering, and anthropology etc. This conference, co-sponsored by Chinese Academy of Social Science (CASS) and Capital University of Economics and Business (CUEB), will bring together researchers who work on the broadly defined game theory. The conference will have featured plenary talks by Professors William L. Thomson and Shmuel Zamir. You are invited to submit a paper or an extended abstract at the conference's online submission system by 1 April 2010.
