Abstract

test

Dear Professor Conley:

Thank you for your decision letter.

I would like to resubmit my manuscript.

Submission number of the paper is EB-08D60001.

I would like to change the title of the paper to

"Characterizing the Nash social welfare relation for infinite utility streams: a note"

The previous title is "Characterizing Nash social welfare relation for infinite utility streams: a note".

I added "the".

I would like to express my gratitude to a referee for his careful and constructive suggestions.

I have tried to incorporate all of the comments and suggestions from the referee, and I believe that I have achieved it.

The referee points out two points:

(1) a degree of cardinality, and (2) the ethical appeal of ratio-incremental equity.

My revisions are as follows:

To respond to the first comment, we discuss this problem in footnote 2.

To respond to the second comment, we mention this point in footnote 3.

I also removed several typos and grammatical errors.

Yours sincerely,

Susumu Cato

(Institute of Social Science, The University of Tokyo)
