Conference Announcement

Robust Econometric Methods for Modelling Economic and Financial Variables

Location : Lisbon, Portugal

Organizers : Banco de Portugal and CEFAGE

Major Topics : Robust Methods, Quantile Regression, Bootstrap, Structural Breaks, etc.

Conference Dates : 9/7/2012 to 9/7/2012

Submission Deadline :

Send Submissions To : Please send paper to: conferences@bportugal.pt

Sponsoring Organizations : Banco de Portugal and CEFAGE

For further information contact : Paulo Rodrigues, Banco de Portugal, pmrodrigues@bportugal.pt

Web Page : www.bportugal.pt/en-US/EstudosEconomicos/Conferencias/Pages/RobustMethods.aspx

This conference aims at discussing new developments of robust methods (in a broad sense) capable of handling data characteristics that are typically viewed as violations of assumptions. The scope of the conference encompasses research in any field of Econometrics or Empirical Econometrics. Keynote speakers: Roger Koenker (University of Illinois) Peter C.B. Phillips (University of Yale) Richard Smith (University of Cambridge) A.M. Robert Taylor (University of Nottingham) Zhijie Xiao (Boston College) Submission of full length articles on theoretical or empirical contributions are welcome. There is no registration fee, however for logistic purposes we require that you complete the registration form provided. Given the limited number of places, priority will be given to researchers that submit a paper.
