The 2003 annual congress of the Society for Economic Research on Copyright Issues will be held in Boston on the 19th and 20th of June, 2003. To be considered for the program, please send a detailed abstract of the paper, setting out the problem to be addressed, methodologies and expected results, as an e-mail attachment to richard.watt@uam.es. The deadline for submissions is 28th February 2003. Final versions of papers will be expected by 15th May 2003. Papers on all relevant topics will be considered, including but not restricted to the economic theory of copyright, empirical issues relating to copyright, digital information management issues, economic analysis of copyright law, the causes and effects of copyright infringements, the collective administration of copyrights, etc. A refereed selection of the papers from the congress will be published and distributed internationally.
