

Volume 28, Issue 52**Conference Announcement****1st WSEAS Int. Conf. on Non-Linear Analysis, Non-Linear Systems and Chaos (NOLASC 2002), 2nd WSEAS Int. Conf. on Wavelet Analysis and Multirate Systems (WAMUS 2002)**

Location : Vouliagmeni, Athens, Greece

Organizers : WSEAS

Major Topics : Non-Linear Analysis, Non-Linear Systems, Chaos, Wavelet

Conference Dates : 12/29/2002 to 12/29/2002

Submission Deadline : 10/31/2002

Send Submissions To : <http://www.wseas.org/conferences/2002/athens/nolasc/>

Sponsoring Organizations :

2002 WSEAS International Conference on WAVELET ANALYSIS and MULTIRATE SYSTEMS (WSEAS WAMUS 2002) Sponsored by WSEAS (WSEAS Sector of Mathematics, WSEAS Sector of Electrical Engineering WSEAS Sector of Mechanical Engineering, WSEAS Sector of Physics, WSEAS Sector of Biology, WSEAS Sector of Chemistry) Vouliagmeni, Athens, Greece, December 29-31, 2002 Contact us: If you want to submit a paper click here and find the appropriate form. If you want to contact us or to be placed in our mailing list, send a message to: athens2002@wseas.org. All the accepted papers will be simultaneously published in two different international fora : Proceedings + International Books or Proceedings + WSEAS Transactions (Journals) TOPICS * Mathematical Wavelet Analysis * Orthogonal Systems * Distributions * Transforms * Multiresolution Analysis * Construction of wavelets * Multirate Filter Banks * Subband Filtering Schemes * Biorthogonal Wavelets * Wavelets in Physics * Wavelets in Biological Science * Wavelets in Electrical Engineering (Image Processing, Control, etc) * Wavelets in Mechanics, Mechanical Engineering and other applied sciences * Multirate Systems * Filter Banks * Multirate Multivariable Systems * Multirate Multidimensional Systems * Lossless Systems * Applications in Science and Engineering
